Rs 9L | Living expenses

Rs 25k-40k | Return tickets home

● What does the law state?

Indians with International Medical Degrees

Medical qualifications can be obtained by Indian students from any authorised medical education school in a foreign country. Students must register with the state medical council (SMC) in order to operate in India after receiving their degree overseas (SMC).

Furthermore, SMCs only register a student with a foreign medical qualification when he has passed the Foreign Medical Graduate Examination (FMGE), administered by the National Board of Examinations (NBE). The FMGE is held twice a year, in June and December, and a candidate must score at least 50% in each of the examinations to be declared passed.

A candidate has a maximum of 3 attempts to pass the examination.

FMGE-Exempted Countries

This is a legal requirement under Section 13(4A) of the Indian Medical Council Act, 1956, as amended in 2002. Those with an undergraduate and postgraduate medical degree from the following countries do not need to take the Fmge and can be registered directly by the SMCs. This is valid till NEXT

- United States of America
- Australia
- Canada
- New Zealand
- United Kingdom

all these countries do not provide direct admission, student has to give their entrance examination and per year fee starts from Rs 18 to 30 lakhs

	USMLE	PLAB
	It is a pathway towards licensure and residency in USA.	PLAB enables you to get GMC registration and so that you can practice in the UK.
Number of steps	Three: Step 1 Step 2 (CK) and (CS) Step 3	Two: PLAB1 PLAB 2
IELTS/OET	Not necessary	Required
	More preparation time	Less preparation time
Attempt	Single attempt	Multiple attempt
Scores	Do matter	Don't matter
Exam duration	Step 1: 8 hours Step 2: 9 hours Step3: 8 hours	PLAB 1: 180 minutes PLAB 2: 200 minutes
Course	Step 1: consists of basic science subjects Step2 (CK): clinical science subjects Step2(CS):OSCI	PLAB 1: Clinical science PLAB 2: OSCI
Exam fee	Costs more	Costs less

● Brief comparison between USMLE and PLAB:

The choice of USMLE or PLAB varies from person to person. It all depends upon what stage of life you are in, your choice of living in either of the countries, relatives staying in the country, cost of the exam, preparation time, and also visa availability.

Competition level:

Less competition in the UK as compared to the USA.

Visa process:

Easy and very straightforward in the UK as compared to the USA to practice in the USA two main factors that play a keen role are: USMLE scores and Visa status.

Jobs availability:

In the UK, jobs are easily available as compared to the USA.

What is NEXT?

NMC (National Medical Council) has introduced the bill in 2019 with the aim of replacing NEET PG and the professor exam in the university.

After that, the Ministry of health and family welfare also brought a draught in 2020. Now the scenario is that there will be a single-window examination for both Indian medical graduates and foreign medical graduates.

NEXT will replace the existing FMGE and NEET PG and will count as the qualifying final exam for MBBS students. It will be a licencing test for students who want to practise medicine in India as well as a gateway to post-graduation.

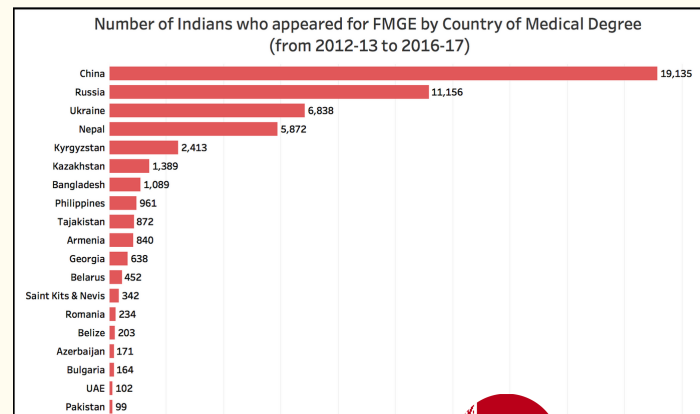

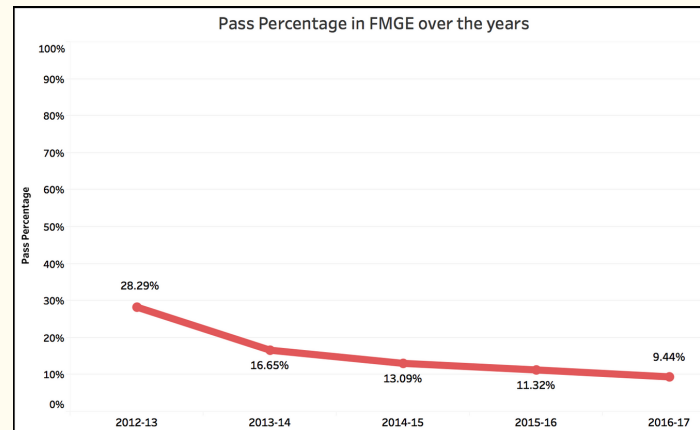

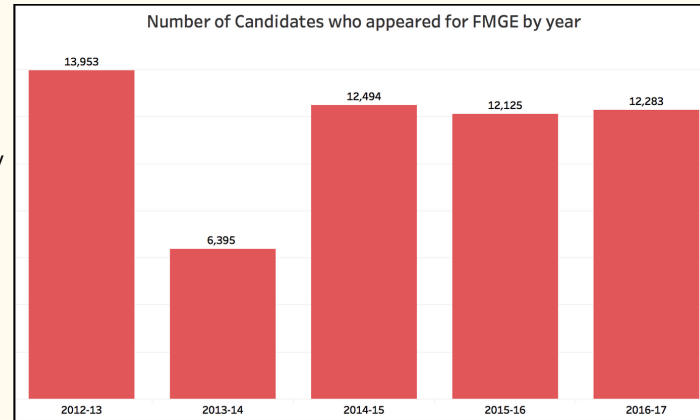

The main objective of the NEXT is to meet the following needs:

- Providing licence to MBBS graduates to practise in India
- Candidates can apply for PG medical programmes such as MS, MD, etc.
- Now students do not need to qualify for FMGE and NEET PG separately. Next will be a common exam for both

Next is not an entrance exam, it is an exit test, which means it's a pass or fail exam in which candidates have to score 50% marks only.

What percentage of candidates pass the Screening Test (FMGE)?

What is ECTS?

The European Credit Transfer and Accumulation System (ECTS) is a tool of the European Higher Education Area for making studies and courses more transparent. It helps students to move between countries and to have their academic qualifications and study periods abroad recognised. ECTS allows credits taken at one higher education institution to be counted towards a qualification studied for at another. ECTS credits represent learning based on defined learning outcomes and their associated workload. ECTS enhances the flexibility of study programmes for students. It also supports the planning, delivery, and evaluation of higher education programmes. It is a central tool in the Bologna Process, which aims to make national education systems more comparable internationally. ECTS also helps make other documents, such as the Diploma Supplement, clearer and easier to use in different countries. ECTS has been adopted by most of the countries in the European Higher Education Area as the national credit system and is increasingly used elsewhere.

I ♥ MINSK

BELARUS

- Minsk 19.7 Lakhs (2017)
- Vitebsk: 3.6 Lakhs (2015)
- Gomel : 5 Lakh (2013)
- Grodno: 3.7 Lakh (2017)

Gomel

Gomel ranks second among the biggest cities in Belarus and is the administrative center of the Gomel Oblast. The state pays considerable attention to the health of the citizens of Gomel and thus encourages the development of sports facilities in the city

RECOMMENDED

BELARUSIAN STATE MEDICAL UNIVERSITY

Established in the year 1922 The Belarusian State Medical University is a leading higher medical educational institution in the Republic of Belarus and has international prestige and recognition for the quality of its teaching and research. SMU has a practice-oriented approach to education that focuses more on practical studies in laboratories or tutorials than on theoretical states. Minsk University has a worldwide structure with 42 clinical departments (including 2 military medical schools) located at 70 different healthcare institutions. The University introduces modern methods of treatment and diagnosis into medical and educational processes.

The Medical Council of India (MO), WHO, and the World Federation for Medical Education have all accredited the university, and AMER BOMU has collaboration agreements with universities in Poland, Canada, Sweden, Japan, and Russia. Academic staff includes more than educators, more than 64 percent of whom have a specialised degree, and three corresponding members of the National Academy of Sciences. Twelve STAR Award winners and sixteen hundred scientists. The medium of instruction is English for the course duration of two years. The tuition at the university is reasonable, and the campus is large. Hostel rapers, Indian mess, campus activity centres like gyms and separate sports complexes, and so on.

University Highlights

- More focus on Clinical Practice
- 2. Provide Cadavers for Dissection
- 3. 42 Clinical Departments
- 6 Network Hospitals
- 8 scientific groups and 6 research laboratories
